

**Sardar Vallabhbhai National Institute of Technology, SVNIT**  
**Department of Computer Science and Engineering**

The Reasons for the proposed student movement in terms of expertise/resources at AMD India Pvt Ltd, Hyderabad, India:

Advanced Micro Devices, Inc., commonly abbreviated as AMD, is an American multinational semiconductor company based in Santa Clara, California, that develops computer processors and related technologies for business and consumer markets. Founded in 1969, the company has more than 25,000 employees as of 2023, More than 10,000 patents worldwide and annual revenue of \$23.60 billion.

An internship at AMD offers hands-on technical education and experience and valuable opportunities.
