Assignment 3

Implement echo client-server message passing application. Message sent from client should be displayed on server and then program should terminate.

1. Write a server (TCP) C Program that opens a listening socket and waits to serve client.
2. Write a client (TCP) C Program that connects with the server program knowing IP address and port number.
3. Get the input string from console on client and send it to server, server displays the same string.
